NOTICE OF EMPLOYMENT

POSITION TITLE: Control Systems Technician
REPRESENTED BY: International Union of Operating Engineers
RESPONSIBLE TO: Electrical and Control Systems Manager or designee
POSTING DATES: 11/9/20 - Open until filled, first review date 11/25/20

Accepting applications from internal and external applicants.

Lakehaven Water and Sewer District has an immediate opening for a Control Systems Technician in our Engineering Department.

Position Range	Pay Level	Pay Range
Control Systems Technician I	11	\$30.17 - \$46.12
Control Systems Technician II	12	\$31.67 - \$48.43
Control Systems Technician III	13	\$33.28 - \$50.82
Control Systems Technician IV	14	\$34.90 - \$53.36

As a Lakehaven Control Systems Technician, you will be part of a team that has been recognized by the National Association of Clean Water Agencies for its environmental stewardship and has been a long standing member of the American Water Works Association. Lakehaven has a service area population of over 135,000 people living across a 35 square mile area in south King County, making us the second largest special-purpose water and sewer district in the state. Our water system includes 450 miles of water mains, 25 active wells and 12 storage tanks, which allows us to meet a current annual average water demand of 10 million gallons per day (MGD) from the community. Lakehaven also has two wastewater treatment plants, 27 sewer lift stations, and 350 miles of sewer mains capable of collecting and treating up to 15.6 MGD. Our employees work hard to produce and treat high quality drinking water and to ensure treated wastewater adheres to EPA standards which safeguards the local ecological system of Puget Sound. If you want to work for an award-winning, innovative utility with competitive pay rates, career advancement and training opportunities, this is the right opportunity for you.

Our team of Control Technicians maintain the controls system network, SCADA & PLC Systems, and instrumentation equipment at our water production facilities, wastewater treatment plants, and sewer pump stations. This includes calibrating instrumentation controls, troubleshooting and modifying existing PLC and SCADA programming, maintaining control systems networks, and performing various other tasks including electrical work as needed to support the District's Electrical Team. The Control Technicians also provide critical input into design decisions for District upgrade projects and work closely with the District's Engineering and Operations staff to provide solutions to simple and complex design and operational problems.

Position placement and pay is dependent upon experience and qualifications.

BENEFITS:

- ◆ State of Washington Department of Retirement Systems PERS Plans
- ◆ State of Washington Health Care Authority's Medical, Dental, Vision benefit programs
- ◆ HRA VEBA Account
- ◆ Paid Time Off
- ◆ Holiday Pay
